

Basic Covid-19 Prevention Protocols for In-Person Worship in the Sanctuary

Drafted on April 28, 2021, based on ACC's more extensive Covid-19 Prevention Plan.

*Please note that some of these restrictions will be relaxed for future worships,
as the public health situation and our comfort levels improve.*

1. Registration in advance required to attend. Hosts will ensure access is limited to those who have registered.
2. Proof of vaccination required for all adults, including 2 weeks' post-immunization period. (Once ACC has your vaccination card on file, you don't need to re-send it.)
3. Temperature check required, before entering.
4. Masks required throughout worship.
5. Ventilation will be maximized via open doors and fans.
6. Sanctuary will be at 25% or less occupancy (this includes over 60 worshippers).
7. Individuals will be seated at least six feet apart from one another (except couples, or others in the same "bubble").
8. No group singing. Music will be instrumental, or perhaps soloists singing at a safe distance.
9. No personal contact, including handshakes and hugs.
10. Designated entry and exit doors and aisles, to assure one-way traffic.
11. Worship time will be less than 50 minutes.
12. No social hour. When worship concludes, we say goodbye and exit promptly.
